Only shielded exterior lighting fixtures will be used except as required for compliance with the Ontario Building Code and/or the recommendations of the Illuminating Engineering Society of North America (IESNA) lighting handbook for uses and/or activities.*

I hereby certify that this drawing conforms in all respects to the site development plans. This drawing includes Architect or Engineer's Signature (if applicable) and Professional Seal (if applicable). The City of Mississauga requires that all working drawings submitted to the Building Department as part of an application for the issuance of a building permit shall be certified by the architect or engineer and signed in conformity with the site development plan as approved by the City of Mississauga. All drawings shall be submitted to the Building Department in triplicate. All original mechanical units shall be stamped from view by the applicant. Pending scores reserved for disabilities must be identified by a sign, installed at the applicant's expense, in accordance with the By-law Requirements and Building Code Requirements. All drawings will be responsible for ensuring that all plans conform to Transport Canada's restrictions. All vehicles will be met with a 32% maximum slope at the property line and within the site.
