## Comments

### Planning

#### Planning Act

Section 51 (24) of the *Planning Act* sets out the criteria for land division in the Province of Ontario. In evaluating such requests, the Committee needs to be satisfied that the proposal meets not only the criteria set out under Section 51(24), but also municipal requirements identify in local legislation.

Section 45 of the *Planning Act* provides the Committee of Adjustment with the authority to grant relief from the requirements of a municipal zoning by-law. In evaluating such requests, the Committee needs to be satisfied that the proposal meets the four tests set out in the *Planning Act*.

#### Provincial Matters

The Provincial Policy Statement 2020 (PPS 2020) and Growth Plan for the Greater Golden Horseshoe promote efficient development and land use, directing the focus towards intensification and redevelopment. The proposal is consistent with the general directive in provincial policy.

Staff comments concerning the applications request are as follows:

The subject property is designated Residential Low Density II in Schedule 10 of the Mississauga Official Plan (MOP), which permits semi-detached dwellings.

Upon review of the application, Planning staff is concerned that additional variances may be required. Discussions with Zoning staff have confirmed Planning staff's concerns. Planning staff

would also like to note that the proposed window wells located in the side yards may obstruct access to the rear yards.

As such, Planning staff are unable to complete a full review of the application at this time and recommend the application be deferred to give the applicant an opportunity to complete a preliminary zoning review with staff to verify the variances requested with Zoning staff and submit a revised list of variances and/or drawings.

#### B. GENERAL INFORMATION

##### 1. Lot Grading and Drainage

We advise the applicant that issuance of any building permits for the new dwelling(s) will be subject to the owner submitting a certified lot grading and drainage plan to this Department for review/approval. The grading and drainage plan is to contain sufficient detail to ensure grading compatibility with the adjacent properties. In addition, the owner will be required to submit the applicable lot grading and municipal services protection deposits.

##### 2. Servicing

All costs incurred in providing any service laterals will be the responsibility of the owner. The owner will also be responsible for all costs incurred for the required road reinstatement (if required). If the service connections are to be installed by a private contractor retained by the

owner, issuance of an open cut permit will be subject to the owner depositing adequate securities with the City to guarantee proper road reinstatement.

### 3. Access

The applicant will be required to apply for Access Modification Permits prior to Site Plan Approval and/or Building Permit Issuance. We advise the applicant that all costs incurred in providing any new driveway entrance(s) to the subject lands or any modifications/reinstatement required, would be at cost to the owner. Driveway accesses shall maintain a 1.5m setback from aboveground features such as utilities and trees. We are also noting that should any utilities need to be relocated, all costs incurred will also be to the owner.

### 4. Storm Sewer Outlet

The storm sewer outlet for this site is the existing 525mm storm sewer on Broadview Avenue. The applicant is encouraged to design the basement elevation 1 metre above the obvert of the storm sewer on the street to eliminate the need for a sump pump.

Please note that in cases of a high groundwater table where a sump pump could run continuously if a sump pump was implemented, the applicants should consider raising the basement elevation to be at least 1.0 meter above the groundwater level. It is the owner's responsibility to satisfy themselves with these conditions as the City has no obligation to address any concerns with the operating conditions of private sump pump systems.

For further information please contact Walter Copping at ext. 905-615-3200 ext. 5831.

We are noting that any Transportation and Works Department concerns/requirements for this property will be addressed under Consent Application 'B' 27/22.
