The main reason for this event is the reunification of the Latin community in the GTA, after the pandemic many families did not have the opportunity to visit and share a special occasions as a Mothers Day, this event was creating thinking in families celebrating this special Day after almost 3 years without having families together, this event will have comedy and dancing, food, drinks, raffles to make a unforgeable day for those that are lucky to have their mothers alive.

Please take a consideration of my letter to help families to enjoy a beautiful and unforgeable night.
