Martha Cameron  
Legislative Coordinator  
City of Mississauga/Corporate Services Department,  
Legislative Services Division

To Mississauga decision-makers,

RE: E-SCOOTER DANGER

I urge you to prohibit the use of all e-scooters in Mississauga. They are a danger to people with disabilities, especially people who have low or no vision, as well as seniors and small children.

Enforcement is a huge problem. Who will ensure that pedestrians are safe?

In fact, who will ensure that the e-scooter riders themselves are safe?

Despite the fact that Toronto has outlawed the riding of e-scooters on public property, and despite the fact that in Toronto the rental companies are not allowed to operate, there are privately-owned e-scooters on sidewalks and roads, cutting in and out among pedestrians and cars. It is a miracle that nobody has yet died.

Part of the problem is that the sale of e-scooters has not been banned in Toronto.

I urge you to listen and to take preventive action while you still can.

Sincerely,  
Kate Chung

Toronto
