

City of Mississauga Department Comments

Date Finalized: 2023-04-05	File(s): A3.23 Ward: 10
To: Committee of Adjustment	
From: Committee of Adjustment Coordinator	Meeting date:2023-04-13 1:00:00 PM

Consolidated Recommendation

The City recommends that the application be refused.

Application Details

The applicant requests the Committee to approve a minor variance to allow an existing driveway width of 8.00m (approx. 26.24ft) whereas By-law 0225-2007, as amended, permits a maximum driveway width of 6.00m (approx. 19.68ft) in this instance.

Background

Property Address: 3430 Forrestdale Circle

Mississauga Official Plan

Character Area: Lisgar Neighbourhood
Designation: Residential Low Density II

Zoning By-law 0225-2007

Zoning: R5-Residential

Other Applications: None

Site and Area Context

The subject property is located north-west of the Tenth Line West and Trelawney Circle intersection in the Lisgar neighbourhood. It currently contains a two-storey detached dwelling with an attached garage. The property has a lot frontage of +/- 9.74m (31.96ft), characteristic of other detached dwellings along Forrestdale Circle. Limited landscaping and vegetative elements

are present in the front yard. The surrounding area context is exclusively residential, containing detached dwellings on lots that are generally of similar sizes.

The applicant is proposing to legalize the existing driveway requiring a variance for driveway width.

Comments

Planning

Section 45 of the *Planning Act* provides the Committee of Adjustment with the authority to grant relief from the requirements of a municipal zoning by-law. Approval of applications must meet the requirements set out under 45(1) and/or 45(2) (a) or (b) in the *Planning Act*.

Staff comments concerning the application of the four tests to this minor variance request are as follows:

The subject property is located in the Lisgar Neighbourhood Character Area and is designated Residential Low Density II in Schedule 10 of the Mississauga Official Plan (MOP). Section 9.1 of the MOP states that driveway widths and associated setbacks should respect the identity and character of the surrounding context.

The applicant is proposing a driveway width of 6.85m (22.47ft). The planned character of the area is that of residential dwellings serviced by appropriately sized driveways that can accommodate the required parking for each property. The intent of the driveway width regulations in the by-law is to permit a driveway that can accommodate two vehicles parked side by side, with the remainder of the front yard being soft landscaped area. The proposed

driveway would represent significant hardscaping of the front yard, contrary to the intent of the zoning by-law, and would be able to facilitate the parking of three vehicles across.

Staff are of the opinion that, as currently proposed, the driveway does not meet the general intent or purpose of the zoning by-law and is not minor in nature. Staff therefore recommend that the application be refused.

Comments Prepared by: Alexander Davies, Committee of Adjustment Planner

Appendices

Appendix 1 – Transportation and Works Comments

This department notes that with regard to the widened driveway within the municipal boulevard (the area between the municipal curb and property line) we would request that this area be reinstated with topsoil and sod should the application be modified to reflect a smaller driveway width within the subject property or if the application is not supported by the Committee.

Comments Prepared by: Tony Iacobucci, Development Engineering Technologist

Appendix 2 – Zoning Comments

In the absence of a Development application we are unable to confirm the accuracy of the information provided, or determine whether additional variance(s) may be required. It should be noted that a zoning review has NOT been completed. The applicant is advised that should they choose to proceed without zoning verification, a full zoning review may result in further

variances being required in the future.

For scope of work that does not require Site Plan Approval/Building Permit/Zoning Certificate of Occupancy Permit, the applicant may consider applying for a Preliminary Zoning Review application. A detailed site plan drawing and architectural plans are required for a detailed zoning review to be completed. A minimum of 6-8 weeks is required depending on the complexity of the proposal and the quality of information submitted.

Comments Prepared by: Brooke Herczeg, Zoning Examiner

Appendix 3- Region of Peel

We have no comments or objections.
