Received8. PUBLIC QUESTION PERIOD - 15 Minute Limit

Glenn Voakes, Resident asked two questions;

Q. In the 2019 Vision Zero report it listed 99 challenges. Of these 22 were classified as “currently considered”. Of the remaining 77, 61 were in the complete in less than 2-year range and 16 were complete in the 3 – 5 year range. How many of these challenges in each of these 2 categories have been completed?

A. Erica Warsh, Project Leader, Vision Zero responded to Mr. Voakes question and provided a list of short term action items from the action plan that have been initiated or underway.

Q. There were 1623 responses to the survey from a population of approximately 800,000. If we reduce that number by 15% to account for those 18 years of age or less that leaves 680,000 potential respondents. Given that 1623 responses are less than ¼ of 1% of the character population how useful is the survey feedback received in making any meaningful Vision Zero decisions going forward?

A. Erica Warsh, Project Leader, Vision Zero responded that the survey is used as a tool for data collection to touch base with the community for public opinion and information for future projects.
