

### Proposed Changes to Noise Control By-law 360-79

The Noise Control Program Review [Corporate Report](#), which was presented to Council on July 8, 2020, proposes 25 recommendations across four areas: by-laws, noise exemptions, enforcement operations and public awareness.

Key recommendations include:

- Introduction of a persistent sound provision to address noise that is either not captured in other categories or unreasonable noise that occurs during the permitted periods
- Introduction of a general prohibition that will prohibit the use of devices to amplify sounds for the purpose of reaching persons outside of the property from which the sound is originating – this will include **Broadcasting Audible Expressions of Faith**
- Introduction of a priority response model to deliver onsite noise investigation
- Joint enforcement of vehicle noise with Peel Regional Police
- Updates to the noise exemption process

Changes to *Schedule 2 Prohibited Periods of Time* for noise are summarized below:

Activity	Current Regulation	Proposed Changes
<b>Auditory Signaling (e.g., Ringing of bells or gongs and the blowing of horns or sirens or whistles)</b>	Quiet zones - at any time	No changes proposed
