PLANNING ANALYSIS SUMMARY

The *Planning Act* allows any property owner within the Province of Ontario the ability to make a development application to their respective municipality in order to accommodate a particular development proposal on their site. Upon the submission of mandated technical information, the municipality is obligated under the *Planning Act* to process and consider the application within the rules set out in the Act.

The Province identifies through its *Provincial Policy Statement* matters that are of provincial interest, which require the development of efficient land use patterns and sustainability in urban areas that already exist. The Province has also set out the *Growth Plan for the Greater Golden Horseshoe*, which is designed to promote economic growth, increase housing supply and build communities that are affordable and safe, among other items. The Growth Plan requires municipalities to manage growth within already existing built up areas to take advantage of existing services to achieve this mandate. In order to meet required housing supply projections, the *Planning Act* instructs municipalities to make planning decisions that are consistent with the *Provincial Policy Statement* and the Growth Plan.

A detailed Planning Analysis is found in Appendix 2. The applications are consistent with the *Provincial Policy Statement* and conform to the *Growth Plan for the Greater Golden Horseshoe*, the Region of Peel Official Plan and Mississauga Official Plan. An official plan amendment is required to change the designation from **Mixed Use** to **Residential High Density** and to amend the applicable Height Schedule in the Lakeview Local Area Plan.

The Lakeview Local Area Plan views the Lakeshore Road corridor as an area that is to develop in accordance with anticipated transit improvements within the right of way in a fashion that maintains the main street character of the corridor and respects and relates to the immediate low rise context.

The proposal conforms to the Lakeview Local Area Plan because it seeks to construct a mid rise building that demonstrates appropriate compatibility with the surrounding area by maintaining the required 45 degree angular plane to the low rise neighbourhood to the north, provides appropriate setbacks to property lines and implements building step backs, facilitates commercial space on the ground floor and addresses the corridor with a building design that is pedestrian oriented. The proposal also seeks to add housing units in a desired built form in close proximity to future higher order transit.

Financial Impact

All fees paid by developers are strictly governed by legislation, regulation and City by-laws. Fees are required to be paid prior to application approval, except where otherwise may be prescribed. These include those due to the City of Mississauga as well as any other external agency.

Conclusion

In summary, the proposed development maintains the goals and objectives of the Lakeview Local Area Plan and represents an overall built form that is compatible with the surrounding neighbourhood. The proposed official plan amendment and rezoning applications are acceptable from a planning standpoint and should be approved.
