

Fire Stations 114 & 115 Additions FADS Committee Review

September 2023

Agenda

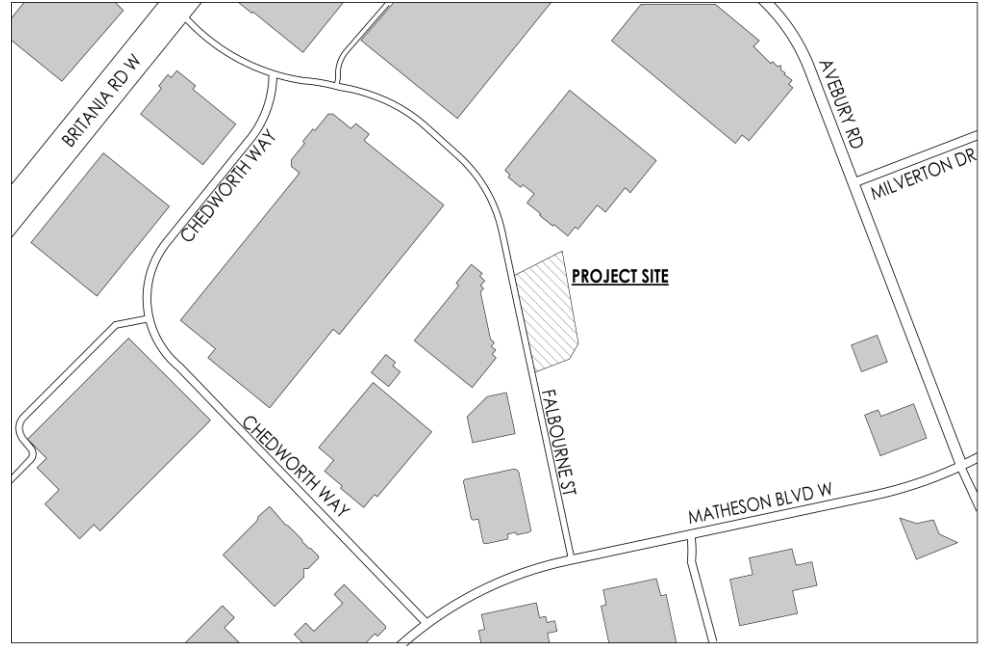

1. Background
2. Project scope and objectives
3. Review design
4. Questions, comments

Background

- Mississauga Fire & Emergency Services (MFES) has 10-year capital plan to renovate thirteen (13) fire stations across the City.
- Fire Stations 114 and 115 are renovated this time.

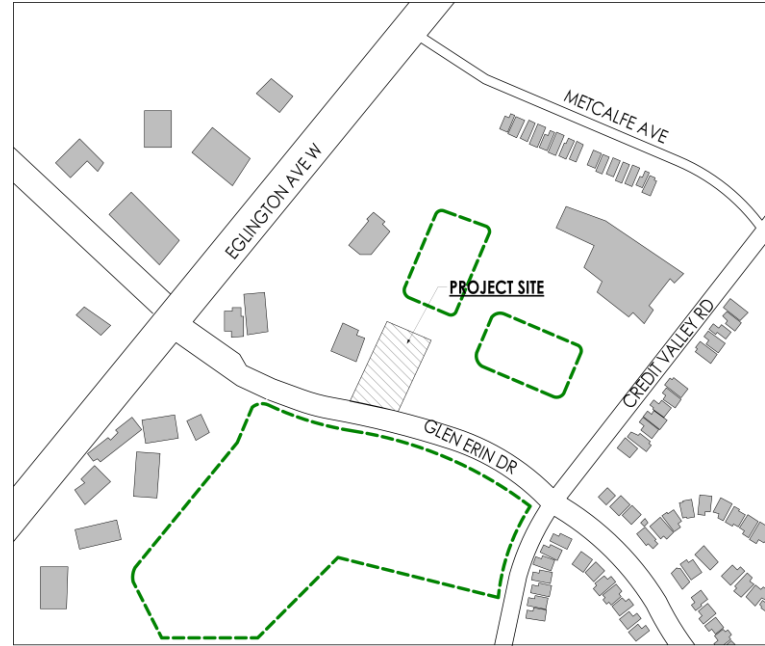

Fire Station 114

- 845 Falbourne St
- Major intersection:
• Matheson Blvd W and Falbourne St
- Serving Ward 5

Fire Station 115

- 4595 Glen Erin Dr.
- Major intersection:
Eglington Ave W and Glen Erin Dr
- Serving Ward 8

Project Scope and Objectives (summary)

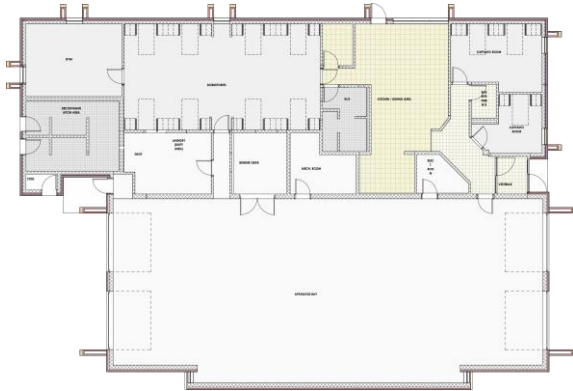

- Selective demolition of existing building, new addition, and renovation of existing areas, complying with AODA (front entrance, vestibules, kitchen, dayroom, dormitory spaces, two captains' room, and other work areas; washrooms, training area, bunker gear storage room, laundry room, parking lot, patios)

Project Scope and Objectives (summary)

- New natural gas full backup emergency generator; provision of all Mechanical, Electrical, Structural, and Control work, as required for the removal, installation, and commissioning of the above-noted equipment and systems;
- Site plan approval, permits, and processes related; lifecycle renewal work including signage and exterior lighting.
- Mobile trailer for temporary accommodation for one crew
- Selective site improvements throughout the site.

Fire Station 114

Existing

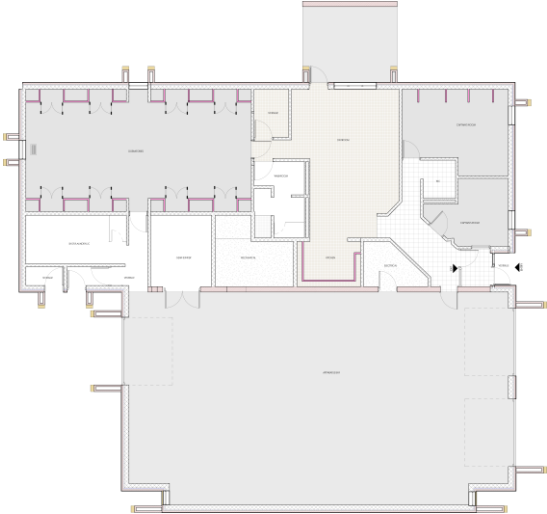

Proposed
