No problem. See a photo below of the 1890s reclaimed brick I planned to use for the repair.

Hi Daniel

Hold off from sending out your crew. I need to get things clarified with the City By-law Enforcement and City Heritage.

Can you email me a photo of the brick sample you intend to use for the repair. I would like to send this to the City for their review and approval. I just need to be sure with Heritage that the brick used in the repair is acceptable.

Thanks
