**APPEALS**

The information on this schedule reflects Council adopted amendments. The following amendments are under appeal and affect this schedule:

**No appeals at time of consolidation**

For in effect mapping information refer to the Consolidation Tables and MOPA document.

- NOTES:**
- These are considered basic rights-of-way. At intersections, grade separations or major physical topographical constraints, wider rights-of-way may be required to accommodate necessary features such as embankments, auxiliary lanes, additional pavement or sidewalk widths, transit facilities, cycling facilities, or to provide for necessary improvements for safety in certain locations.
  - These right-of-way widths are intended to accommodate the Higher Order Transit Corridors, Bus Rapid Transit facility and Bus Rapid Transit stations shown schematically on Schedule 6, as well as transit stations along Higher Order Transit Corridors, automobile, truck and other vehicular movements. Where as a result of further studies the land areas required to accommodate these rights-of-way are deemed to be insufficient, the City may acquire additional rights-of-way in excess of the basic right-of-way widths shown on Schedule 8. Portions of the Bus Rapid Transit facility are protected under the Parkway Belt West Plan. In addition, the City may acquire lands for a public transit right-of-way along Higher Order Transit Corridors and the Bus Rapid Transit Corridor where the creation of a public transit right-of-way separate from, adjacent to, or in addition to a road right-of-way is deemed appropriate.
  - While it is intended that this Schedule provide a basis for retaining or acquiring rights-of-way for current or possible future transportation purposes, it is not intended to imply that all designated rights-of-way will necessarily be used for transportation purposes.
  - "Designated Right-of-Way Widths" of Regional Roads as shown in the Region of Peel Official Plan.
  - "Designated Right-of-Way Widths" shown on the map are not all under Mississauga jurisdiction.
  - Base map information (e.g. railways, watercourses), including any lands or bodies of water outside the city boundaries, is shown for information purposes only.
  - The rights-of-way for Minor Collector Roads are identified in Table 8-3.
  - The Eglinton Avenue right-of-way east of Etobicoke Creek consists of a 36m road right-of-way (Toronto) and a 14m right-of-way for the Bus Rapid Transit.
  - All lines shown are conceptual.
