

YOUTH CLIMATE CORPS

Campaign Video

Our Vision for a Youth Climate Corps

An exciting new job training and placement program with thriving wages that will offer a good, green job to anyone under 35 who wants one.

To rapidly decarbonize, electrify, and secure well-paying climate jobs for now and the future

Campaign Wins...

M-105 YOUTH CLIMATE CORPS 44TH PARLIAMENT, 1st SESSION

MOTION TEXT

That:

- (a) the House recognize that,
 - (i) Canada's greenhouse gas (GHG) emissions remain incompatible with what science and justice demand to secure a livable future,
 - (ii) mobilization for climate action at the scale required must be a grand societal undertaking,
 - (iii) thousands of young people across Canada understand that we face a climate emergency and are eager to serve as we, as a country, seek to drive down GHG emissions and prepare for climate disasters,
 - (iv) a Youth Climate Corps could train hundreds of thousands of youth for careers in the well-paying green jobs of the future, and help ensure Canada has a skilled workforce for a sustainable economy,
 - (v) an ambitious Youth Climate Corps would be a transformative public program, signaling to young people and society at large that we are genuinely in climate emergency mode,
 - (vi) a Youth Climate Corps could also help Canada address many of our other gravest challenges, including inequality, youth mental health, reconciliation with Indigenous peoples, the housing crisis, shortages of skilled labour and lack of opportunities for young people; and
- (b) in the opinion of the House, the government should,
