Save the South Common Woodlot

- In response to the 2023 designation of Mississauga as a "Tree City of the World", Insauga reported a quote from City officials. "Trees are essential in fighting climate change and making Mississauga a livable city."
- On June 17, 2024 the South Common Community Centre (SCC) will be demolished and rebuilt
- 31 mature, healthy trees (approx. 40%) will be destroyed and removed from a woodlot on the south side of the property as part of this project
- Essentially, the plan to destroy these trees is to make a crooked entranceway straight.

We, the undersigned residents of the City of Mississauga call upon the City of Mississauga (Wing-See Wu - project manager) to refrain from destroying any part of the woodlot on the south side of the property of the SCC.

Save the South Common Woodlot

- In response to the 2023 designation of Mississauga as a "Tree City of the World", Insauga reported a quote from City officials. "Trees are essential in fighting climate change and making Mississauga a livable city."
- On June 17, 2024 the South Common Community Centre (SCC) will be demolished and rebuilt
- 31 mature, healthy trees (approx. 40%) will be destroyed and removed from a woodlot on the south side of the property as part of this project
- Essentially, the plan to destroy these trees is to make a crooked entranceway straight.

We, the undersigned residents of the City of Mississauga call upon the City of Mississauga (Wing-See Wu - project manager) to refrain from destroying any part of the woodlot on the south side of the property of the SCC.
