Comments

Planning

Section 45 of the *Planning Act* provides the Committee of Adjustment with the authority to grant relief from the requirements of a municipal zoning by-law. Approval of applications must meet the requirements set out under 45(1) and/or 45(2) (a) or (b) in the *Planning Act*.

Staff comments concerning the application of the four tests to this minor variance request are as follows:

The subject property is located in the Churchill Meadows Neighbourhood Character Area and is designated Residential Low Density II in Schedule 10 of the Mississauga Official Plan (MOP). Section 9 of MOP promotes development with appropriate urban form and site design, regulating

that such development is compatible with the existing site conditions, the surrounding context, and the landscape of the character area. Staff note that the entrance will be appropriately screened from the streetscape with a proposed privacy fence ensuring compatibility with the surrounding context.

The sole variance requests a below grade stairwell to be located in the exterior side yard. The intent of the exterior side yard regulation is to ensure that an adequate buffer exists between a structure and the public realm, and to ensure the entrance does not negatively impact the overall streetscape. In this instance, the applicant is proposing to locate the entrance behind the proposed privacy fence which will appropriately screen the stairwell from view.

Staff are satisfied that any negative impact to the streetscape is appropriately mitigated and that the proposal meets the general intent and purpose of the official plan and zoning by-law. Furthermore, the proposal contributes to orderly development of the subject property whose impacts to the streetscape and abutting properties are minor in nature.
