

City of Mississauga Memorandum

Date: February 5, 2025

To: Chair and Members of the Port Credit Heritage Conservation District Subcommittee

From: John Dunlop, Manager, Indigenous Relations, Heritage & Museums

Meeting date: March 3, 2025

Subject: **Request to Alter 42 John Street South (Ward 1)**

Recommendation:

That the request to alter 42 John Street South (Ward 1), as per the memorandum from John Dunlop, Manager of Indigenous Relations, Heritage & Museums, dated February 5, 2025, be approved.

Background:

The subject property is designated under Part V of the *Ontario Heritage Act* as it forms part of the Old Port Credit Village Heritage Conservation District (HCD). It is considered a contributing property. Changes to the property are subject to the Old Port Credit Village HCD Plan, 2018.

Comments:

The property owner is looking to install a two-storey addition on the rear of the property. This addition will require the demolition of a sunroom which was a previous addition to the dwelling.

The addition will be sympathetic with stucco cladding and wood details connected to the rear windows. The new addition will maintain the roof height with gables and walls set to similar pitches.

The carport will also be re-roofed to join the carport with the new addition. Finally, an out-of-character concrete masonry chimney is proposed to be removed and the wall repaired to match the existing wood clapboard siding.

The new addition will require variances for the rear set back, carport overhang as well as variances to align the existing dwelling with modern zoning. The primary variance is to the rear set back and is required due to irregularities in the lot line. For further details see appendix 1.

Port Credit Heritage Conservation District Sub-Committee	2025/02/05	2
--	------------	---

The proposed addition and the requested variances will not negatively impact the character of the Port Credit HCD and should therefore be approved.

Conclusion:

The property owner is looking to add a two-storey addition on to the rear of the house. As the addition is in keeping with the heritage character of the area it should be approved.
