

Stormwater Public Artist in Residence

Lisa Hirmer

Storm Water Advisory Committee

July 14, 2025

Stormwater Public Artist in Residence

- Partnership project between the City's stormwater projects team and the public art program, based on the premise that *professional artists are creative problem-solvers*
- In this inaugural role, the artist works alongside City staff to research and propose new art for public places that raise awareness of stormwater management projects and processes
- Public art projects will be unveiled in 2026-2027
- Lisa was selected for this role by an arms-length art selection committee through an open call to artists (learn more at mississauga.ca/publicart)
