Dear Mississauga City Clerk,

I'm a Mississauga Lime rider and I'm writing because e-scooters are important to me.

For me, and I believe many others, e-scooters have been one of the most enjoyable and practical ways to get around the city, especially during the summer months. They provide simple, affordable, and efficient way to travel short distances, whether it's running errands, visiting friends, or exploring different parts of the city without needing a car.

Beyond convenience, e-scooters encourage people to spend more time outdoors and reduce reliance on cars, which supports a more environmentally friendly and active lifestyle. in a growing city like Mississauga, having flexible transportation options is incredibly important, and removing e-scooters would take away one of the most accessible and modern mobility solutions currently available.

I understand that there may be concerns related to safety or regulation, but I strongly believe these issues can be addressed through better rules, designated riding areas, or increased awareness, rather than eliminating them entirely. Many cities have successfully improved their e-scooter programs instead of removing them, and I hope that Mississauga can do the same.

E-scooters are more than just a mode of transportation, they are part of what makes the city feel vibrant, accessible, and forward-thinking. Removing them would be a step backward.

I respectfully urge you to reconsider this decision and explore ways to improve and regulate e-scooters instead of removing it altogether.

Thank you for your time and consideration.

Sincerely,
Kirti Nathani
